2026 ANNUAL CHAIRMAN'S LETTER

Dear Partners, Investors, Government Leaders and Institutional Stakeholders,

We are living through a defining moment in global economic history.

Financial balances are shifting.
Capital flows are being reallocated.
New growth centers are emerging.
Markets once considered peripheral are becoming structurally central to the global economic architecture

It is within this context that CFBANQUE INVESTMENT affirms its mission.

We founded this institution with a clear ambition:
to build an international financial platform capable of structuring, mobilizing and directing capital toward the most strategic economic transformations of our time.

Our vocation is not merely financial.
It is institutional.
It is strategic.
It is transformational.

We believe that:

- Capital must be structured with discipline.
- Risk must be understood, quantified and managed.
- Growth must be sustainable and inclusive.
- Emerging markets deserve access to financial sophistication equal to global standards.

CFBANQUE INVESTMENT positions itself as a strategic bridge between:

- International investors seeking structured and resilient opportunities
- Governments committed to long-term economic transformation
- Ambitious corporations pursuing expansion
- Financial institutions seeking credible execution partners

2026 ANNUAL CHAIRMAN'S LETTER

We operate where complexity demands expertise, discipline and vision.

The credibility of a financial institution is never declared — it is demonstrated.

It is demonstrated through:

- Analytical depth
- Structuring sophistication
- Risk management discipline
- Execution consistency
- Governance integrity

Africa and emerging markets represent one of the most significant structural growth opportunities of the 21st century.

Yet this potential requires:

- Patient capital
- Advanced financial engineering
- Regulatory intelligence
- Balanced and responsible partnerships

CFBANQUE INVESTMENT has deliberately chosen to play an active role in this transformation.

We are building a long-term institution.
A disciplined institution.
An institution capable of operating at the intersection of global capital markets and local economic realities.

Our ambition is clear:

To position **CFBANQUE INVESTMENT** as a leading pan-African investment bank with international reach, recognized for its expertise, credibility and ability to mobilize transformative capital.
